Excellence in Breast Care & Surgical Interventions

The SSOC Surgeons Practicing in Aspen

Breast cancer patients in need of a breast specialist need not look any further than Golden, Colorado. Surgical breast specialists Juhi Asad, D.O., Elizabeth Brew, M.D., and Rebecca Wiebe, MD offer patients with cancer and other conditions the latest medical techniques using a team approach. Drs. Asad, Brew, and Wiebe lead 'Breast Teams' throughout the Denver Metropolitan area individualized to each patient's needs to ensure achievable clinical outcomes. The Breast Team takes a multidisciplinary, collaborative approach when dealing with one of the many forms of breast cancer. Medical and radiological oncologists are part of the process from the outset. SSOC breast surgeons share surgical findings with the patient, then help coordinate "next step" appointments. They also provide letters with surgical and lab results and descriptions to all involved with the patient's care.

In other forms of surgery, medical review boards are only consulted when a situation is unusual; with breast cancer, every case is brought before a tumor board. Every cancer is different, requiring truly individualized medicine and prospective analysis of the case. Breast specialization requires vigilant monitoring of the rapidly-changing guidelines for treatments. Falling a couple of months behind on journal articles can result in a patient not getting the most current care, including the order, duration and strength of treatments. Drs. Asad, Brew, and Wiebe are committed to excellence and leadership in breast cancer care.

Juhi Asad, D.O.

Fellowship trained in breast cancer and board certified as a general surgeon, Dr. Asad is highly respected in the medical community for providing physicians and patients with the most current surgical options to treat tumors and other cancer conditions. She loves to contribute her skills and training in surgical oncology and breast reconstruction along with the latest findings related to therapies and surgical intervention to the provider teams and breast cancer patient.

Dr. Asad earned her medical degree at the New York Institute of Technology College of Osteopathic Medicine and Fellowship trained in breast cancer at St. Luke's Roosevelt Hospital/ Beth Israel Medical Center in New York, New York which is affiliated with Columbia University Medical Center and New York University. She continues to stay on top of the treatment and outcome research by being a participating member in the American Society of Breast Surgeons, Society of Surgical Oncology and the American Society of Breast Disease.

Elizabeth Brew, M.D., F.A.C.S

Dr. Brew is board certified in surgery by the American Board of Surgery, a Fellow in the American College of Surgeons and has held a Colorado Medical License for over 20 years. She practices General Surgery and Trauma Surgery with a special interest in Breast Care and Breast Cancer Surgery. Dr. Brew has built up a strong reputation over the years in providing a high level of care and education related to her specialties. She truly enjoys working in a team with other specialists across clinical disciplines providing surgical oncology and breast reconstruction expertise and surgical skills needed for each patient.

Dr. Brew has advanced her knowledge with specialty training in breast care and surgical techniques, presents at breast cancer conferences and is published on interventional and non-interventional techniques to improve outcomes and quality of life for patients. Dr. Brew is a long time member of The American Society of Breast Surgeons and the Association of Women Surgeons and is committed professionally to all her patients and their families.

Rebecca L. Wiebe, M.D.

Dr. Wiebe is a Fellow in the American College of Surgeons and board certified by the American Board of Surgery. She has been practicing in Colorado for over 20 years after completing her General Surgical Residency from the University of Colorado School of Medicine. Dr. Wiebe earned her Medical Degree from the University of New Mexico. Dr. Wiebe is a member of the American Society of Breast Surgeons and has extensive experience in surgical interventions regarding breast cancer and pathologies. Dr. Wiebe individualizes patient care and surgical interventions to achieve the best outcomes available for the patient. She is passionate in collaborating with other cancer specialists such as oncologists, radiologists, and primary care physicians to ensure the best approach is provided for the patient.
